

Celebrate Women's History Month with IEEE Women in Engineering, NJ Coast Section

We will be screening the film, "Secrets of the Surface: The Mathematical Vision of Maryam Mirzakhani" on 2 separate dates in March: the 23rd at 7:30pm; and the 30th at 5:30pm via Zoom. A link to the event will be sent on the day prior. Please share this invitation with colleagues and friends.

This film examines the life and mathematical work of Maryam Mirzakhani, an Iranian immigrant to the United States who became a superstar in her field. In 2014, she was both the first woman and the first Iranian to be honored by mathematics' highest prize, the Fields Medal
