

Join our 2023 IMS “Journals” Reception & Panel Session in San Diego

Figure 1. Posters presented at the Journals Reception held at IMS 2022 in Denver.

If you were unable to attend our first “Reviewers Recruiting and Get to Know Our Publications” event in Denver in 2022, do not despair! We are holding the event again in San Diego, and this year we have expanded it to include up to 450 persons. Join us for a question-and-answer Panel session staffed by the Editors-in-Chief and MTTs Steering Committee members of each of our four core journals (top row in the figure above, left-to-right): *Transactions on Microwave Theory and Techniques* (T-MTT), *Microwave and Wireless Technology Letters* (MWTL), *Transactions on Terahertz Science and Technology* (TST), *IEEE Journal of Microwaves* (JMW), plus of course this very popular *Microwave Magazine*; and our six co-sponsored journals (bottom row in the figure above, left-to-right): *Journal of Electromagnetics, RF and Microwaves in Medicine and Biology* (J-ERM), *Transactions on Quantum Engineering* (TQE), *Journal on Multiscale and Multiphysics Computational Techniques* (J-MMCT), the new *Transactions on Radar Systems* (not shown at our 2022 event because it just came out this January), *Journal of Lightwave Technology* (jointly sponsored with the Optical Society of America) and the *RFIC Virtual Journal*. New in 2023 is the *IEEE Radar Systems Journal* which will also be at this year’s event. All of these journals are targeted at slightly different authors and readers, and all have their own publication philosophy and personality. You can click on the figure and blow up the detailed poster (from our 2022 event) for any of the journals shown to get more detailed information.

Figure 2. Attendees at the individual Journals reception poster booths at IMS 2022 in Denver.

This June, at the 2023 IMS meeting in San Diego, California we are again planning a two-fold gala event/reception to both bring in new authors and reviewers for all of our publications and also as a way to interact with and meet personally our EiC's, editorial board members, and journal staff members. As we did last year, we plan to begin with a special Panel session wherein all our journals will be briefly introduced by our EiC's or their representatives, a general discussion on publishing and reviewing with/for our MTT journals will be initiated and targeted at both academia and industry, and attendees can ask general questions of our publications experts. This will be followed by more intimate one-on-one discussions with our Editors-in-Chief and many Editorial Board members from our publications, who will be staffing individual booths displaying detailed posters and take-home literature. You will also get a chance to mingle, and interact with a select group of like-minded and interested researchers while enjoying a generous food and beverage reception.

This event is currently scheduled to take place on Tuesday evening, June 13th between approximately 7:00 and 9:00 PM at the Hilton San Diego Bayfront Hotel (room to be announced), and will be by reserved ticket only. Dates and times are still preliminary, so check for final room location, date, and starting time through the IMS or MTT-S web sites. The cost of entry is the promise to do some reviewing for one or more of our sponsored journals over the coming 12 months. You can sign up for a ticket by using the link at the end of the article. We will require some details on your areas of expertise, affiliation, and experience level in order to properly place you in our reviewing pools, so please respond to all the questions on the sign-up form. Once the form is submitted you will receive an entrance ticket via the email address you provide. Please print this, or keep it handy on your mobile phone to show at the door when you arrive at the reception. Places are limited, and we will close off the ticketing as soon as we have reached our room/reception quota.

Don't miss this second chance to get acquainted with our publications, meet our Editors personally, and hear about our publication philosophy and future directions. Get your questions answered and give your feedback – positive and negative – directly to those who handle your

manuscripts or who are constantly asking for more and more of your precious time to do reviews! We can't wait to see you for the first time, or to meet you again in San Diego to discuss *the coolest ideas under the sun!*

If you have any questions or comments do not hesitate to contact the organizers of this event at peter@thzglobal.com
