

Distinguished Service Award

Recognizes an individual who has given outstanding service for the benefit and advancement of the MTT Society.

Amir Mortazawi

For a Career of Leadership, Meritorious Achievement, Creativity and Outstanding Contributions in the Field of Microwave Theory and Technology

Amir Mortazawi (Fellow, IEEE) received the Ph.D. degree in electrical engineering from The University of Texas at Austin, Austin, TX, USA, in 1990. He is currently a Professor of electrical engineering with the University of Michigan, Ann Arbor, MI, USA. His research interests include millimeter-wave phased arrays, power amplifiers, wireless power transmission and harvesting, acoustic MEMS, and frequency-agile microwave and millimeter wave circuits based on thin film ferroelectrics. Dr. Mortazawi was an elected member of the IEEE MTT-S Administrative Committee (AdCom) for eight years. He was a recipient of the 2019 Distinguished Educator Award from the IEEE Microwave Theory and Techniques Society. He is the General Co-Chair of the IEEE International Symposium on Antennas and Propagation 2026 in Detroit, MI, USA. He was the Chair of the MTT-S Distinguished Microwave Lecturers Committee. From 2006 to 2010, he was the Editor-in-Chief of IEEE Transactions on Microwave Theory and Techniques. He was also served as an Associate Editor for IEEE Transactions on Microwave Theory and Techniques in 2005 and IEEE Transactions on Antennas and Propagation from 1998 to 2010 and was the Guest Editor of the Special Issue on the IEEE MTT-S Microwave Symposium for IEEE Transactions on Microwave Theory and Techniques in December 1995.
