Received Region 1 award for organizing and conducting MTT-S Long Island Symposium in 2016.

Received best Chapter award for running the MTT-S Long Island chapter in 2017.

POSITION STATEMENT

If selected for the position, what are your plans and how will they help support the [IEEE MTT-S Vision, Mission, Goals, and Strategies?](#)

IEEE organization has over the years been impacted by reduced Membership strength, Lack of visibility of organization existence in the public domain Participation at Grassroot level in local area jointly with Government and other agencies to help its members. I wish to help change that by volunteering full time to travel to different regions and help organize events at local level to improve visibility of IEEE organizations existence by involving members from those areas as well local government and other organizations by sharing and using their resources along with IEEE's.

As an example, I am helping as a coordinator the Region 1 Women in Engineering (WIE) chapter and the Suffolk County Executive's office of women's affairs to organize a WIE conference next year.
